

FULL SPECTRUM AGENCY *for* AUTISTIC ADULTS

Vision: A world where autistic people of all backgrounds and abilities are accepted and included as valued members of society and our respective communities.

Mission: Full Spectrum Agency for Autistic Adults exists to support and foster independence and build community for autistic adults.

Our programs are designed and led by autistic people/people with autism.

Our flagship program is our **Peer Support Meetup**, where autistic adults are free to come as they are, as their genuine self, and discuss what is going on in their life. The opportunity for our community members to get together and talk with like-minded individuals and have a sense of belonging is unique and extremely valuable.

We also offer:

- Social skills class
- Discussion groups
- Game night
- In-person walks/hangouts
- Virtual hangouts
- Information sessions and presentations

Full Spectrum Agency aims to meet **individual autistic adult needs** for socialization, physical and mental health, confidence, independence, and self-sufficiency.

We also **advocate and educate the community** to create better access to meaningful opportunities for autistic adults and promote acceptance and inclusion of autistic adults in society.
